AUTHOR INDEX

VOLUME 36 NUMBERS 1–12

A

Abbey, Mavis. See *Suzukawa et al.* 473

Abdel-Fattah, Ghada, Maria Luz Fernandez, and **Donald J. McNamara.** Regulation of guinea pig very low density lipoprotein secretion rates by dietary fat saturation 1188

Abe, Akira, Norman S. Radin, James A. Shayman, Linda L. Wotring, Robert E. Zipkin, Ramachandran Sivakumar, Jeffrey M. Ruggieri, Kenneth G. Carson, and **Bruce Ganem.** Structural and stereochemical studies of potent inhibitors of glucosylceramide synthase and tumor cell growth 611

Abuelo, Dianne. See *Batta et al.* 705

Abuhani, Colleen. See *Burkey et al.* 1463

Acquati, Francesco. See *Bopp et al.* 1721

Aftring, R. Paul, and **Mason W. Freeman.** Structure of the murine macrophage scavenger receptor gene and evaluation of sequences that regulate expression in the macrophage cell line, P388D_1 1305

Agellon, Luis B. See *Ryan et al.* 1066

Aguilar-Salinas, Carlos A., P. Hugh R. Barrett, Jacobo Kelber, James Delmez, and **Gustav Schonfeld.** Physiologic mechanisms of action of lovastatin in nephrotic syndrome 188

Ahmed, H. A., R. P. Jazrawi, P. M. Goggin, J. Dormandy, and **T. C. Northfield.** Intrahepatic biliary cholesterol and phospholipid transport in humans: effect of obesity and cholesterol cholelithiasis 2562

Ahola, Maria. See *Syvänne et al.* 573

Ailhaud, Gerard. See *Radeau et al.* 2552

Aimale, V. See *Lelli et al.* 1315

Åkerblom, Hans K. See *Lehtimäki et al.* 653

Albanesi, Joseph P. See *Hildebrandt et al.* 2599

Albers, John J. See *Miller et al.* 931

—. See *Moriyama et al.* 2329

Aléssio, M. L. See *Soares et al.* 1401

Allen, Stephanie. See *Mize et al.* 1178

Almendingen, Kari, Odd Jordal, Peter Kierulf, Berit Sandstad, and **Jan I. Pedersen.** Effects of partially hydrogenated fish oil, partially hydrogenated soybean oil, and butter on serum lipoproteins and Lp[a] in men 1370

Ameis, Detlev, Gerald Brockmann, Rupert Knoblich, Martin Merkel, Richard E. Ostlund, Jr., Joseph W. Yang, Paul M. Coates, Jean A. Cortner, S. Victor Feinman, and **Heiner Greten.** A 5' splice-region mutation and a dinucleotide deletion in the lysosomal acid lipase gene in two patients with cholesteryl ester storage disease 241

Ames, N. Kent. See *Chen et al.* 1544

Amouzadeh, Hamid R. See *Remaley et al.* 308

Andersson, Lena, Charlotte Bratt, Kristina C. Arnoldsson, Bengt Herslöf, N. Urban Olsson, Berit Sternby, and **Åke Nilsson.** Hydrolysis of galactolipids by human pancreatic lipolytic enzymes and duodenal contents 1392

Apfelbaum, Marian. See *Jemaa et al.* 2141

Arakawa, Fumiko. See *Moriyama et al.* 2329

Arakawa, Kikuo. See *Moriyama et al.* 2329

Aravinda Upadhya, G. See *Harvey, Aravinda Upadhya, and Strasberg* 2661

Arnault, Frédéric. See *Benlian et al.* 356

Arnoldsson, Kristina C. See *Andersson et al.* 1392

Arnsmeier, Sheryl L., and **Amy S. Paller.** Chemiluminescence detection of gangliosides by thin-layer chromatography 911

Arribas-Gómez, I., I. Duque-Marín, G. Pérez de Lema, M. L. Díez-Marqués, J. Lucio-Cazaña, M. Rodríguez-Puyol, and **D. Rodríguez-Puyol.** A possible role for platelet-activating factor in the hydrogen peroxide-induced TXB_2 and PGE_2 glomerular synthesis 260

Arveiler, Dominique. See *Jemaa et al.* 2141

Asiedu, Daniel K. See *Frøyland et al.* 2529

Asztalos, B. F. See *de Beer et al.* 526

Atak, Zerrin. See *Mahley et al.* 839

Atgié, C. See *Mauriège et al.* 672

Atienza, Josephine M. See *Shah et al.* 1936

—. See *Shah et al.* 1945

Auerbach, Bruce J. See *Haubenwallner et al.* 2541

Auwerx, Johan. See *Busca et al.* 939

Aviram, Michael. See *Mandel et al.* 1385

Axelson, Magnus, Olle Larsson, Jie Zhang, Junichi Shoda, and **Jan Sjövall.** Structural specificity in the suppression of HMG-CoA reductase in human fibroblasts by intermediates in bile acid biosynthesis 290

Ayyad, Nariman, Bertram I. Cohen, Erwin H. Mosbach, Takahiro Mikami, Yasuko Mikami, and **Akira Ohshima.** Hormonal control of cholesterol cholelithiasis in the female hamster 1483

Azhar, Salman. See *Reaven, Tsai, and Azhar* 1602

B

Baer, Alan N. See *Zhao et al.* 2444

Baert, J. See *Vanloo et al.* 1686

Bagdade, John D., Janice D. Wagner, Lawrence L. Rudel, and **Thomas B. Clarkson.** Accelerated cholesteryl ester transfer and altered lipoprotein composition in diabetic cynomolgus monkeys 759

—. See *Liu, Bagdade, and Subbaiah* 1813

—. See *Liu and Bagdade* 2574

Baldo, Allain, Alan D. Sniderman, Serena St. Luce, Xiao-Jing Zhang, and **Katherine Cianflone.** Signal transduction pathway of Acylation Stimulating Protein: involvement of protein kinase C 1415

Bamberger, Mark J. See *Clark, Moberly, and Bamberger* 876

Banka, Carole L., Ti Yuan, Maria C. de Beer, Mark Kindy, Linda K. Curtiss, and **Frederick C. de Beer.** Serum amyloid A (SAA): influence on HDL-mediated cellular cholesterol efflux 1058

Barber, Therese. See *Blanchette-Mackie et al.* 1211

Bard, Jean-Marie. See *Jemaa et al.* 2141

Barnes, Stephen. See *Crawford et al.* 2147

Barnett, Blake C. See *Haubenwallner et al.* 2541

Barton, P. See *Pyle et al.* 2355

Barrett, P. Hugh R. See *Aguilar-Salinas et al.* 188

Batta, Ashok K., G. Stephen Tint, Sarah Shefer, Dianne Abuelo, and **Gerald Salen.** Identification of 8-dehydro-

SUBJECT INDEX

VOLUME 36 NUMBERS 1–12

A

Absorption: Of 9-*cis*-ß-carotene 1264
ACAT: *see* **Acyl-CoA:cholesterol acyltransferase**
Acid lipase, lysosomal: cDNA, cloning of 2212
Acute phase proteins 1058
Acute phase response 37
Discordant regulation of proteins of cholesterol metabolism during 1474
Acyl-CoA:cholesterol acyltransferase
Inhibitors, effect of on secretion of cholesteryl esters and apoB by perfused liver 25
mRNA levels, tissue-specific changes in rabbits 823
Acyl-coenzyme A:cholesterol acyltransferase inhibitors: Reduction of LDL cholesterol in African green monkeys by 1199
Acylation stimulating protein: Signal transduction pathway of 1415
Adipocyte retinoid-binding protein: Regulation of expression of 137
Adipocytes
3T3-L1, metabolism of fenbufen by 2493
Lipid-poor, high CETP gene expression in 2552
Location of perilipin on surface of intracellular lipid droplets 1211
Mobilization of fatty acids from 2164
Monolayer cell culture of, using extracellular basement membrane components 868
Adipose tissue
Around lymph nodes, interaction with lymphoid cells in vitro 2219
Explants 2219
Fatty acid metabolism in, a Special Report 1629
Fatty acids, selective mobilization during energy depletion 2164
Human, CETP mRNA abundance in 2552
Metabolism in obese premenopausal women 672
Monolayer cell culture of adipocytes 868
Regional variation in metabolism 672
ß-Adrenergic agents: Lipolytic effect of 451
Adrenocortical cells: Cell surface "blanket" of apoE on 745
African green monkeys: Perfused livers, secretion of cholesteryl esters and apoB 25
Agarose gel electrophoresis: Determination of triglycerides in lipoproteins separated by 1839
Age: And apoB-100 metabolism 1155
Albumin: Transfer of gangliosides to lipoproteins from 564
Alcohol consumption: Relation to plasma lipids, in the Turkish Heart Study 839
Aldehydes, lipid ester-bound: Among Cu^{2+}-catalyzed peroxidation products of lipoproteins 1876
Alkyl esters: Chylomicron triacylglycerols arising from 1046
Amino acid sequence: Of hedgehog apoA-I 485
Amyloid A isoforms 37
Amyloid A protein: Characterization as an apolipoprotein 526
Amyloid A, human serum, recombinant
Catabolism of 37
Effect of on cholesterol flux 37
Amyloid A, serum: And cellular cholesterol flux 1058
Antioxidant: Inhibition of apoC-VLDL interaction by 2609
Antioxidant enzyme: mRNA, induction in rat liver 736
Antioxidant protection: Against LDL oxidation 2383
Aortic lesions: In murine models of atherosclerosis 2320
APOBEC-1: *see* **Apolipoprotein B mRNA editing enzyme**
Apolipophorin III: *M. sexta*, expression in *E. coli* 1066
Apolipoprotein(s)
Concentrations in patients with CETP deficiency 696
Distribution in HepG2 cells 2243
Effect of ACAT inhibitors on, in African green monkeys 1199
Effect of dietary fat on 1787
Secretion by perfused liver, effect of ACAT inhibitors 25
Apolipoprotein [a]
Common linear antigenic site with human catalase 813
5' Flanking fragments in HepG2 cells 1721
Apolipoprotein [a] mRNA: Liver, lowering of by gemfibrozil 1294
Apolipoprotein A-I
And LCAT, role in cholesterol esterification in lipoprotein-X in vitro 2344
Expression in transgenic mice 593
Gene loci, polymorphisms in patients with gallbladder disease 804
Human, overexpression in transgenic rats 1463
Kinetic evidence for a fast and slow secretory pathway in humans 1618
Polarized secretion by transfected MDCK cells 407
Recruitment of cell phospholipids and cholesterol by 148
Regulation of efflux of cholesterol from HepG2 cells by 1887
Regulation of expression by retinoids 1021
Regulation of secretion by HepG2 cells 1796
Release during HDL interconversion 975
Secretion of biologically active proapoA-I in a baculovirus-insect cell system 2355
Structure and function in the hedgehog 485
Structure of 211
Subspecies in patients with CETP deficiency 696
Synthetic peptides, association with phospholipids 1686
Apolipoprotein A-I deficiency: Effect on LCAT activation in mouse plasma 349
Apolipoprotein A-I gene: Transcription in rat liver 1586
Apolipoprotein A-II
Polarized secretion by transfected MDCK cells 407
Recruitment of cell phospholipids and cholesterol by 148
Apolipoprotein B
Carboxyl-terminal truncates, heterologous expression of 2090
Conformation of on the surface of LDL 2027
Gene loci, polymorphisms in patients with gallbladder disease 804
Human, expression in transgenic mice 1082
Kinetics of, in VLDL, IDL, and LDL 172
Metabolism in VLDL 172
mRNA editing, modulation by ethanol 2069

mRNA, editing of 414
Oxidation 1037
Production from VLDL, in nephrotic syndrome, inhibition by lovastatin 188
Regulation of secretion by HepG2 cells 1796
Secretion by perfused liver, effect of ACAT inhibitors 25
Apolipoprotein B mRNA
Developmental regulation of the catalytic subunit of the editing enzyme of 1664
Hepatic editing, in NIDDM rats 1676
Apolipoprotein B mRNA editing enzyme
Developmental regulation in the human small intestine 1664
Gene encoding the catalytic subunit of 414
Apolipoprotein B-48
Plasma concentration in rats after treatment with Triton or Intralipid 1557
Plasma, in NIDDM rats 1676
Quantification in human triglyceride-rich lipoproteins 890
VLDL containing, assembly in rat liver 395
Apolipoprotein B-67: Purification of an LDL particle containing apoB-67 2622
Apolipoprotein B-100
In VLDL, IDL, and LDL, impact of age on metabolism of 1155
Lipoprotein particles, regulation of secretion by HepG2 cells 2513
Plasma concentration in rats after treatment with Triton or Intralipid 1557
Plasma, in NIDDM rats 1676
Quantification in human triglyceride-rich lipoproteins 890
VLDL containing, assembly in rat liver 395
Apolipoprotein C: Interaction with VLDL, inhibition by a phenolic antioxidant 2609
Apolipoprotein C-III: Hepatic expression of, correlation with hypolipidemic activity of fibrates 2541
Apolipoprotein E
Cell surface "blanket" of, on rat adrenocortical cells 745
Deficiency in mice 2320
Degradation in macrophages 2129
LDL receptor-binding site of 1905
Mice deficient in, cholesterol transport 1227
Mouse, expression in pregnancy 1774
Quantification in human triglyceride-rich lipoproteins 890
Synthetic peptides that bind to the LDL receptor 80
Variants, LDL receptor-independent binding of 517
Apolipoprotein E phenotypes
And dietary fats in children 653
In the Turkish Heart Study 839
Apolipoprotein E variant: E3', association with mild dyslipidemia and double pre-ß VLDL 57
Apolipoprotein E3': Arg136 → His 57
Apolipoprotein, functional recombinant: Bacterial expression and site-directed mutagenesis of 1066
Apolipoprotein VLDL-II: Expression in transgenic mice 1453
Apolipoprotein-specific antibodies: In structural studies of lipid transfer particle 108
ApoSAAp: *see* **Serum amyloid A**
Arachidonate epoxides/diols: Identification by capillary chromatography-mass spectrometry 952
Arachidonic acid: Cytochrome P450 metabolite of, regulation of catecholamine secretion by, in chromaffin cells 2599
Arterial smooth muscle cells: Epoxyeicosatrienoic acid metabolism in 1236
ASP: *see* **Acylation Stimulating Protein**
Astrocytes: Cocultured with brain endothelial cells, effect of on fatty acid composition 2311
Atherogenesis: Possible role of oxidized LDL-mediated activation of phospholipase D 2005
Atherogenic modification of low density lipoprotein: Effects of α-tocopherol, ß-carotene, and vitamin C 2383
Atherogenic risk: And specificity of LCAT 1813
Atherosclerosis 308
In murine models, quantitation of 2320

B

Baculovirus–insect cell system: Secretion of biologically active proapoA-I 2355
Barrier homeostasis: Requirement of extracellular processing of phospholipids 1925
Bilayer characteristics: Of a diether phosphonolipid analog of DPPC 1116
Bile acid(s)
Abnormal absorption in familial hypertriglyceridemia 96
Analogs containing reversed amide bonds, synthesis and characterization 901
Biosynthesis intermediates, suppression of HMG-CoA reductase in fibroblasts by 290
Composition in cholesterol cholelithiasis in hamsters 1483
Conjugated, containing reversed amide bonds 901
Fractional turnover and synthesis 96
Ileal absorption, decrease by 2164U90 in rats and mice 1098
Inhibition of active transport system by 2164U90 1098
Nonamidated and amidated, synthesis of 3-glucosides of 628
Portal, relationship with hepatic cholesterol 7α-cholesterol in the rat 325
Repression of cholesterol 7α-hydroxylase transcription by 1359
Sodium-dependent transport, inhibition by 2164U90 1106
Syntheses of 3-glucosides of nonamidated and glycine- and taurine-amidated bile acids 628
Synthesis in humans, serum 7α-hydroxycholesterol as an indicator of 2059
Synthesis, regulation in the rat 315
Bile canalicular membrane: Role in biliary lipid transport 2562
Bile diversion: Effect of on intestinal triacylglycerol storage pool size 2405
Bile salt(s)
Conjugated, removal of surface-active impurities and calcium 2639
Sulfated and non-sulfated taurine-conjugated, interaction of H-FABP with 1745
3-Sulfated taurine-conjugated, photolabile analogue of 1729
In a model digestive mixture 2478
Bile salt-membrane interactions: Prediction of using immobilized artificial membrane chromatography 2251
Bile, model: Cholesterol crystal growth in 2054
Biliary cholesterol: Intrahepatic transport in humans 2562

Biliary diversion: And bovine plasma cholesterol metabolism 1544
Biliary haptoglobin: A promoter of cholesterol crystallization 1325
Biliary lipid secretion
In the rat, imaging of 2147
Role of the bile canalicular membrane 2562
Biliary phospholipid: Intrahepatic transport in humans 2562
Biliary proteins: In gallbladder bile 2661
Bilirubin, unconjugated: Rapid association with amorphous calcium phosphate 1697
Biosynthesis of polyunsaturated fatty acids: Pathways of 2471
Blood–brain barrier 2311
Body mass index: Interaction with LPL gene asn 291→ser mutation, determination of elevated plasma triacylglycerol concentrations 2104
Brain capillaries: Fatty acid composition endothelial cells of 2311
Brain fatty acids: Effect of dietary linoleate on composition 998
Breast feeding
Imprinting on bile acid biosynthesis, regulation of LDL receptor expression, and HDL subfractions 299
Lipoprotein-cholesterol responses in infants 1178
Butter: Effect of on serum lipoproteins and Lp[a] 1370

C

CaCo-2 cells
Effect of a coffee lipid (cafestol) on regulation of lipid metabolism 2079
Esterification of cholesterol and secretion of triacylglycerol-rich lipoproteins 1533
Lipid metabolism in 535
Metabolism of palmitic and linoleic acids in 13
Modulation of fatty acid desaturase activity in 552
Regulation of expression of apoA-I by retinoids in 1021
Regulation of expression of the LDL receptor gene in 1434
Triacylglycerol-rich lipoprotein cholesterol derived from plasma membrane cholesterol in 2651
CAD: *see* **Coronary artery disease**
Cafestol: Effect of on regulation of lipid metabolism in CaCo-2 cells 2079
Calcium influx: In chromaffin cells, regulation by a cytochrome P450 metabolite of arachidonic acid 2599
Calcium ion: Removal from conjugated bile salts 2639
Calcium phosphate: Binding of unconjugated bilirubin to 1697
Canalicular membrane vesicles: And biliary secretion 2147
Candidate genes: For exploring the pathogenesis of atherosclerosis 308
Carbon dioxide: Measurement of, to assess metabolism of remnant lipoproteins 2670
Carbonyl-amine reactions: Production of long chain pyrrole fatty esters from 725
Carboxyl ester lipase: Hydrolysis of galactolipids by 1392
Cardiovascular Risk in Young Finns Study 653
ß-Carotene
Compartmental analysis of metabolism of 1825
Effect of on oxidative modification of LDL 2383
9-*cis*-ß-Carotene: Intestinal absorption and metabolism 1264
Catalase: Antigenic site shared with apo[a] 813
Catecholamines
Involvement of, in LTA-induced increase in hepatic triglyceride secretion in rats 1987
Secretion in chromaffin cells, regulation by a cytochrome P450 metabolite of arachidonic acid 2599
cDNA: Of rat lysosomal acid lipase, cloning of 2212
Cell membranes: Selectivity of apoA-I and apoA-II in recruitment of phospholipid from 148
Cell proliferation
After partial hepatectomy, effects of dietary fish oil 1708
Possible role of oxidized LDL-mediated activation of phospholipase D 2005
Cell surface: Of adrenal cells, location of apoE on 745
Cellular cholesterol efflux
And serum amyloid A 1058
HDL-mediated, influence of SAA on 1058
Inhibition by 25-hydroxycholesterol 505
Cellular retinoid-binding protein: Regulation of gene expression of, by retinoic acid and hormones 137
Cellular uptake: Of lipoprotein, mediated by LPL 2362
Ceramides: Physical properties 1945
Ceramide, synthetic: Synthetic, structural and thermotropic properties 1936
CETP: *see* **Cholesteryl ester transfer protein**
Chemiluminescence: Detection of gangliosides on TLC by 911
Chicken yolk: HDL particles in 601
Children
Serum lipids in 653
With FH, dietary treatment with sitostanol ester margarine 1807
Chinese hamster ovary cells: Sphingomyelin synthesis in Chinese hamster ovary cells 1345
Cholelithiasis 1325
Cholelithiasis, cholesterol: In the female hamster, hormonal control of 1483
Cholest-5-ene-3ß,4ß-diol: Identification and quantitation in rat liver and human plasma 2275
19-nor-5,7,9(10)-Cholestatrien-3ß-ol: Identification of, in patients with Smith-Lemli-Opitz syndrome 2413
Cholesterol
Defect in synthesis in the Smith-Lemli-Opitz syndrome 1595
Efflux from HepG2 cells, regulation by apoA-I 1887
In triacylglycerol-rich lipoprotein, derived from plasma membrane in CaCo-2 cells 2651
Levels, in the Turkish Heart Study 839
Low levels in tissue of Smith-Lemli-Opitz syndrome subjects 89
Quantitation by gas-liquid chromatography 2261
Quantification in LDL subclasses 2291
Recruitment by apoA-I and apoA-II 148
Responses in infants fed diets predominant in oleic or linoleic acid 1178
Structural features that regulate clearance of chylomicron-like lipid emulsions 2038
Cholesterol 7α-hydroxylase
Gene, regulation of 2419
Relationship with portal bile acids in the rat 315
Synchronous circadian rhythms of mRNA levels and activity in the rabbit and rat 367

Cholesterol 7α-hydroxylase expression: Regulation by sterols in primary hepatocyte culture 1168
Cholesterol 7α-hydroxylase transcription: Repression by bile acids 1359
Cholesterol absorption
Effect of ACAT inhibitors on, in African green monkeys 1199
Quantitation of, use of ß-sitostanol as a marker for 2267
Cholesterol, biliary: Intrahepatic transport in humans 2562
Cholesterol binding: By apoSAAp 37
Cholesterol biosynthesis
mRNA of enzymes, determination by RPA 1919
Regulatory role of bile acid biosynthesis intermediates 290
Cholesterol cholelithiasis
Effect of on intrahepatic biliary cholesterol and phospholipid transport in humans 2562
In the female hamster, hormonal control of 1483
Cholesterol crystallization: Biliary haptoglobin as a promoter of 1325
Cholesterol crystal growth assay 2054
Cholesterol, dietary: Responsiveness among mice 1522
Cholesterol distribution
In the eye lens, assessment by confocal Raman microspectroscopy and filipin cytochemistry 1139
In transgenic mice expressing human apoB and CETP 1082
Cholesterol efflux: Inhibition by 25-hydoxycholesterol 505
Cholesterol efflux, cellular: And amyloid A 1058
Cholesterol enrichment: Enhancement of expression of sterol-carrier protein-2 by 2630
Cholesterol esterification: In vitro in lipoprotein-X, role of LCAT and apoA-I 2344
Cholesterol flux: Effect of apoSSAp on 37
Cholesterol gallstone formation 2450
Cholesterol homeostasis, hepatic: In guinea pigs, alteration by psyllium 1128
Cholesterol kinetics: In apoE-deficient mice 1227
Cholesterol metabolism
And biliary diversion 1544
And dietary fiber, in the guinea pig 2191
Hepatic, developmental regulation 641
In juvenile baboons, imprinting by infant feeding 299
In peroxisome deficiency 1385
In the cynomolgus monkey 67
Regulation of enzymes of during acute phase response 1474
Cholesterol microcrystals: Associated with Con A-binding glycoproteins 2661
Cholesterol nucleating activity: And concanavalin A contaminants 2661
Cholesterol oxides: And endothelial cell injury 1971
Cholesterol, plasma membrane: Esterification in CaCo-2 cells, possible role of p-glycoprotein 1533
Cholesterol structural features: In regulation of clearance of chylomicron-like lipid emulsions 2038
Cholesterol synthesis
In patients with Smith-Lemli-Opitz syndrome 705
In the cynomolgus monkey, role of the liver 67
Relationship with serum lathosterol levels 343
Cholesterol trafficking: In CaCo-2 cells 2651
Cholesterol transport
In macrophages, effect of progesterone 544
In apoE-deficient mice 1227
Reverse, molecular physiology of 211
Cholesterol uptake: By the selective pathway of ovarian granulosa cells 1602
Cholesterol-fed mice: Cholesterol kinetics in 1227
Cholesterol-fed rabbits: Differential expression of hepatic genes in 308
Cholesteryl ester(s)
Effect of on secretion of apoB-100 by HepG2 cells 2513
Fatty acid composition, Turkish Heart Study 839
Free cholesterol derived from, in macrophages 544
From peroxidized LDL and HDL, aldehyde functions in 1876
HDL, selective uptake in transgenic mice expressing human apoA-I 593
Of parinaric acid, use of in studying antioxidant effects of HDL in LDL-HDL mixtures 2580
Oxidized, CETP-mediated transfer of 2017
Plasma composition and synthesis in 14 vertebrate species 1813
Secretion by perfused liver, effect of ACAT inhibitors 25
Transfer among lipoproteins 2574
Cholesteryl ester hydrolysis: By neutral cholesterol esterase, regulation of activity of 2303
Cholesteryl ester metabolism: Effect of dietary polyunsaturated fatty acids on 277
Cholesteryl ester storage disease 2212
5' Splice-region mutation and dinucleotide deletion in lysosomal acid lipase gene 241
Cholesteryl ester transfer
Accelerated in diabetic cynomolgus monkeys 759
Effects of dietary fat on 1787
Cholesteryl ester transfer protein 211, 2574, 2580
Deficiency, differences in subspecies of apoA-I-containing lipoproteins in patients with 696
Exchange of oxidized cholesteryl linoleate between LDL and HDL, mediation by 2017
Gene loci, polymorphisms in patients with gallbladder disease 804
Human, expression in transgenic mice 1082
Immunoassay using monoclonal antibodies 876
mRNA, abundance in human adipose tissue 2552
Cholesteryl linoleate, oxidized: Exchange between LDL and HDL 2017
Chromatography, capillary: And mass spectrometry, identification of arachidonate epoxides/diols by 952
Chromatography, gas-liquid
Cholesterol quantitation by 2261
Monitoring of lipoprotein oxidation by analysis of hydroxy fatty acids 200
Chromatography, high performance liquid: Predicting bile salt-membrane interactions by 2251
Chromatography, immobilized artificial membrane: Of bile salts 2251
Chromatography, reversed-phase ion-pair: Assay of HMG-CoA synthase by 622
Chronic renal failure: Post-translational forms of retinol-binding protein in 1247
Chylomicrons
Enhancement of removal in the perfused rat liver, by LPL 1335
Plasma clearance in the hamster, effect of stigmastanyl-phosphocholine on 1567
Removal mechanisms 2174
Triacylglycerol structure of 1046

Chylomicron remnants: Enhancement of removal in the perfused rat liver, by LPL 1335
Chylomicron retinyl esters: Hepatic uptake and metabolism 149
Chylomicron-like triglyceride emulsion 1557
Cigarette smoke: Inhibition of plasma LCAT activity by 322
Circadian rhythm: Of cholesterol 7α-hydroxylase 367
Cirrhosis of the liver: Serum 7α-hydroxycholesterol in patients with 2059
Clearance: Of chylomicrons from the liver, effect of LPL 1335
CMP-N-acetylneuraminate:lactosylceramide α2,3-sialyltransferase: Specificity to molecular species of GM3 ganglioside 1274
Coffee lipid: Effect of on regulation of lipid metabolism in CaCo-2 cells 2079
Colipase: Interaction with pancreatic lipase 1029
Colipase-dependent pancreatic lipase: Kinetic properties different from rat pancreatic lipase-related protein, GP-3 2374
Compartmental analysis: Of the dynamics of ß-carotene metabolism 1825
Complementarity determining regions: Of monoclonal antibodies specific for the LDL receptor-binding site of human apoE 1905
Compound 2164U90:
Decrease of bile acid absorption and serum cholesterol by 1098
Inhibition of ileal sodium-dependent bile acid transport 1106
Computer modeling study: Of lysophospholipid substrates 429
Concanavalin A affinity chromatography: Separation of cholesterol nucleating proteins from lipids and pigments 2661
Conditional transcript elongation: Of the apoA-I gene in rat liver 1586
Confocal microscopy 1
Confocal Raman microspectroscopy: And filipin cytochemistry, in study of cholesterol distribution within cells and tissues 1139
Conformation: Of apoB on surface of LDL, ribbon and bow model 2027
Conjugated bile acids: Analogs containing reversed amide bonds 901
Conjugated bile salts: Removal of surface-active impurities and calcium 2639
Conversion rate: Of VLDL to LDL 158
Copper ions
Inhibition of plasma LCAT activity by 322
Oxidation of LDL by 919
Oxidation of LDL by 2383
Copper-induced oxidation: Of LDL subfractions 662
Coronary artery disease: HDL subfractions in 573
Coronary heart disease
Association with LPL gene polymorphisms 2141
Hypolipidemic activity of select fibrates and correlation with changes in hepatic apoC-III expression 2541
CRBP: *see* **Cellular retinoid-binding protein**
Cryofixation: Of liver tissue 2147
Crystal structure
Of 1-stearoyl-3-oleyl-glycerol 2185
Of piperazinium oleate at -150°C 332
Cu^{2+}-induced oxidation: Protective effect of HDL 2580
Cynomolgus monkeys
Cholesterol metabolism in 67
Diabetic, cholesteryl ester transfer in 759
Lowering of plasma Lp[a] and liver apo[a] mRNA by gemfibrozil 1294
Cysteine: Cellular generation, and LDL oxidation 2203
Cytochrome P450: In stimulus-secretion coupling 2599
Cytochrome P450 inhibitors: Effect of on catecholamine secretion stimulated by calcium ionophores 2599
Cytotoxicity: Of free fatty acids 1956

D

7-Dehydrocholesterol
Defective conversion to cholesterol in skin fibroblasts from Smith-Lemli-Opitz homozygotes 1595
Increased tissue concentration in Smith-Lemli-Opitz syndrome 89
7-Dehydrocholesterol reductase: Defect in Smith-Lemli-Opitz syndrome 1595
8-Dehydrocholesterol: In patients with Smith-Lemli-Opitz syndrome 705
Denaturing gradient gel electrophoresis: Detection of LDL receptor gene mutations by 860
Desaturation
Of fatty acids 440
Of fatty acids in CaCo-2 cells 552
Deuterium labeled fatty acids: Lack of uptake by animal cell mutants 1897
Developmental expression: Of elements of hepatic cholesterol metabolism 641
Developmental regulation: Of APOBEC-1 1664
Dexamethasone: Regulation of CRBP by 137
DGGE: *see* **Denaturing gradient gel electrophoresis**
DHA: *see* **Docosahexaenoic acid**
Diabetes: Cholesteryl ester transfer in 759
Diabetes, non-insulin-dependent: HDL subfractions in 573
Diacylglycerol(s)
Analysis of positional distribution of fatty acids on, using lipase and phospholipase A2 1407
Mixed chain, crystal structure of 2185
Diacylglycerol acyltransferase: Involvement in origin of VLDL triglyceride in the rat 125
Dietary fat
And apoE phenotypes in children 653
Association with hepatic and lipoprotein lipase activities 462
Effect of on antioxidant enzyme mRNA induction in rat liver 736
Effect on HDL molecular species 277
Effect on HDL phospholipids and LCAT reactivity 277
Effects of in moderate hypercholesterolemia 1787
Dietary fat saturation: Effect of, in regulation of VLDL secretion rates in guinea pigs 1188
Dietary fiber: Lowering plasma LDL in the guinea pig 2394
Dietary n–6 fatty acids: Effect of on fatty acid composition of liver, heart, and kidney phospholipids 1897
Dietary soluble fiber: Response to in guinea pigs 2191
Diether phosphonolipid: Bilayer characteristics 1116
Differential scanning calorimetry
Of ceramides 1945
Of synthetic ceramides 1936

Dipalmitoyl phosphatidylcholine: Bilayer characteristics of a phosphonolipid analog 1116
Docosahexaenoic acid
At *sn*-2 position of phosphatidylcholine in platelet membranes 47
Decrease in RBC membrane phosphatidylethanolamine, in retinitis pigmentosa 1427
Formation from α-linolenate 998
Synthesis in human skin 2433
DPPC: *see* **Dipalmitoyl phosphatidylcholine**
Dyslipidemia: And double pre-ß VLDL, associated with an apoE mutant 57

E

EFA: *see* **Essential fatty acids**
Eicosanoids
Biological activities of 5-oxo-EPE and 5-oxo-ETE 2590
Formation of 5-oxo-ETE from EPA 2590
Eicosapentaenoic acid: Formation of a 5-oxo metabolite from, effects on human neutrophils and eosinophils 2590
5-Oxo-6,8,11,14,17-eicosapentaenoic acid: Formation from EPA, effects on human neutrophils and eosinophils 2590
Electron microscopy
Of 3T3-L1 adipocytes 1211
Of CaCo-2 cells 13
Electron spectroscopic imaging: Of bile canaliculi from cryofixed liver 2147
Electrophoresis, agarose gel: Determination of triglycerides in lipoproteins separated by 1839
Elongation: Of fatty acids 440
Endothelial cells
Brain capillary, cocultured with astrocytes, effect of on fatty acid composition 2311
Fatty acid transport to 266
Injury, and cholesterol oxides 1971
Endotoxin
Discordant regulation of proteins of cholesterol metabolism during acute phase reaction 1474
Inhibition of LCAT by 1254
Energy depletion: In the rat, selective mobilization of adipose tissue fatty acids 2164
Enterohepatic circulation 1098, 1106
Reduction of plasma cholesterol by partial interruption of 1544
Enterohepatic cycling: Of bile acids 9
Enzymes: Of hepatic cholesterol metabolism, developmental expression of 641
Enzymology: Of enzymes involved in vitamin D metabolism 1641
Eosinophils: Effects of 5-oxo metabolites of EPA on 2590
EPA: *see* **Eicosapentaenoic acid**
5-oxo-EPE: *see* **5-Oxo-6,8,11,14,17-eicosapentaenoic acid**
5-oxo-ETE: *see* **5-Oxo-6,8,11,14-eicosapentaenoic acid**
Epidermal lipid metabolism 1925
Epidermis, reconstructured: Stratum corneum structure in 496
Epinephrine: Lipolytic effect of 451
Epoxyeicosatrienoic acid
Identification by capillary chromatography-mass spectrometry 952
Metabolism in arterial smooth muscle cells 1236
Essential fatty acid deficiency 998
Effect of on growth hormone stimulation of rat pituitaries during postnatal development 1401
Effect of on membrane fatty acid content 1401
Estrogen-regulated lipoprotein metabolism: Transgenic mouse model for 1453
Ethanol
Effect of on antioxidant enzyme mRNA induction in rat liver 736
Modulation of apoB mRNA editing in the rat 2069
Ether analog: Of lysophosphatidylcholine, simple chemical synthesis of 2459
Exon 9 deletion: In the LPL gene 356
Experimental nephrosis: Hyperlipoproteinemia associated with 1463
Expired carbon dioxide: Measurement of, to assess metabolism of remnant lipoproteins 2670
Expression
Bacterial, of apoLp-III 1066
Heterologous, of apoB carboxyl-terminus truncates 2090
In vitro, of natural mutants of LCAT 967
Of ACAT mRNA in rabbits 823
Of apoA-I, regulation by retinoids 1021
Of human apoA-I in transgenic rats 1463
Of key elements of hepatic cholesterol metabolism 641
Extrahepatic tissues: Removal of lipid emulsions from plasma by 2174
Eye lens: Cholesterol distribution in 1139

F

Familial hypercholesterolemia
Dietary treatment of children with sitostanol ester margarine 1807
FH $_{\text{Benevento}}$ 1315
Mutations of the LDL receptor gene in 860
Familial hypertriglyceridemia: Abnormal bile acid absorption 96
Familial lecithin:cholesterol acyltransferase deficiency 967
Fat cells: Intra-abdominal, control of lipolysis in 451
Fat, dietary: Responsiveness among mice 1522
Fatty acids
Adipose tissue, selective mobilization during energy depletion 2164
Delivery to cells in different vehicles 266
Desaturation and elongation 440
Deuterium-labeled, metabolism in the rat 1897
Dietary saturated, effect of on Lp[a] levels in men 1447
Differential processing in CaCo-2 cells 13
Fish oil, effects on LDL size, oxidizability, and uptake by macrophages 473
Hydroxy, monitoring of lipoprotein oxidation by analysis of 200
Metabolism of, in CaCo-2 cells 13
n–6, metabolism by the liver, heart, and kidney 1897
Polyunsaturated, pathways for biosynthesis of 2471
Positional distribution on di- and triacylglycerols 1407
Fatty acid composition
Of brain capillary endothelial cells 2311
Of CaCo-2 cell phospholipids 552
Of liver and brain fatty acids, effect of diet 998
Of liver, plasma, and VLDL lipids in cholesterol-fed hamsters, effect of tetradecylthioacetic acid 2529
Of plasma cholesteryl in 14 vertebrate species 1813

Of plasma triacylglycerol, effects of dietary fat on 1787
Fatty acid desaturase: Modulation of activity in CaCo-2 cells 552
Fatty acid hydroxylation: Effect on physical properties of ceramides 1945
Fatty acid metabolism
In endothelial cells 266
In liver and adipose tissue, a Special Report 1629
Fatty acid synthase mRNA: Tissue distribution, genetic mapping, and kinetics of decay 1507
Fatty acid transport: To endothelial cells 266
Fatty esters, long chain pyrrole: In vitro production from carbonyl-amine reactions 725
Fe^{3+}-induced oxidation: Protective effect of HDL 2580
Fecal balance method: To measure total bile acid synthesis 2059
Fenbufen: Metabolism of by cultured 3T3-L1 adipocytes 2493
Fiber, soluble: Response to in guinea pigs 2191
Fibrates: Correlation of hypolipidemic activity with hepatic apoC-III expression 2541
Fibroblasts: Overexpression of 15-lipoxygenase 1996
Fibroblasts, peroxisome-deficient: Associated with impaired uptake of LDL and reduced cholesterol synthesis 1385
Filipin cytochemistry: And confocal Raman microspectroscopy in study of cholesterol distribution within cells and tissues 1139
Fish oil fatty acids: Effects on LDL size, oxidizability, and uptake by macrophages 473
Fish oil, partially hydrogenated: Effect of on serum lipoproteins and Lp[a] in men 1370
Fish-eye disease: And LCAT deficiency 967
Fluorescence microscopy 1
Fluorescent alkyl phospholipid: Transfer to plasma lipoproteins 251
Fluorescent labeling: Of glycosphingolipids on thin-layer chromatographic plates 1848
Fluorescent lipid analogs: Uptake and compartmentalization in *Schistosoma mansoni* larvae 1
Fluorescent probe: Use of to study particle-specific oxidation kinetics with a mixed lipoprotein system 2580
Fluorescent staining: Of 3T3-L1 adipocytes 1211
Foam cells
And sterol-carrier protein-2 2630
Macrophage-derived, interleukin-1α production by 2232
Focal segmental glomerular sclerosis: Mechanism of action of lovastatin in 188
Formula feeding: Imprinting on bile acid biosynthesis, regulation of LDL receptor expression, and HDL subfractions 299
Fractional turnover: Of bile acids 96
Free fatty acids
Cytotoxicity of 1956
Partitioning to lipoproteins 1956
Unbound, levels in human serum 229
Freeze-fractured lipid droplets 1211
Functional properties: Of in vitro oxidized LDL 919

G

Galactolipids: Hydrolysis by pancreatic lipolytic enzymes and duodenal contents 1392
Gallbladder bile, human: Quantification of mucin in 2450
Gallbladder disease: Polymorphisms at the apoB, apoA-I, and CETP gene loci in 804
Gallstones: In the female hamster 1483
Gangliosides
Chemiluminescence detection, by TLC 911
Exogenous, distribution in serum proteins 564
Exogenously added, relative affinity albumin and lipoproteins for 564
Gas-liquid chromatography: Cholesterol quantitation by 2261
Gemfibrozil: Lowering of plasma Lp[a] protein and apo[a] mRNA levels by 1294
Gender differences: In response to dietary fiber, in the guinea pig 2191
Gene: Cholesterol 7α-hydroxylase (CYP7), hormonal regulation 2419
Gene activation: In primary human cells, effect of on protein binding to the LDL receptor promoter 383
Gene defects: In fibroblast cDNA in LCAT deficiency 931
Gene expression
ACAT, in rabbits 823
CETP, in human adipose 2552
Differential, in cholesterol-fed rabbits 308
LDL receptor, in HepG2 and CaCo-2 cells 1434
Of adipocyte CRBP, regulation of 137
Of apoB mRNA 1664
Of MTP in HepG2 cells, regulation by insulin 1073
Of sterol-carrier protein-2 2630
Of the catalytic subunit of the rat apoB mRNA editing protein 414
Gene polymorphisms: Of CETP in patients with gallstones 804
Gene regulation: Cholesterol 7α-hydroxylase 2419
Gene structure: Of the murine scavenger receptor 1305
Genetic mapping: Of human fatty acid synthase mRNA 1507
Genetic mechanisms: Regulation of dietary cholesterol response 67
Genomic footprinting: Of the LDL receptor promoter 383
Glomerular prostanoids: Synthesis of, role of PAF 260
3-Glucosides: Of nonamidated and amidated bile acids, synthesis of 628
Glucosylceramide synthase: Studies of inhibitors of 611
Glucosylceramide synthase inhibitors: Structural and stereochemical studies of 622
Glycerol release: From adipose tissue around lymph nodes 2219
Glycerolipids, xenobiotic: Synthesis and metabolism 2493
Glycerophospholipids: Lack of uptake by animal cell mutants 1866
Glycerophospholipid esters: Aldehyde functions in, from peroxidized LDL and HDL 1876
Glycosphingolipids: Fluorometric detection on thin-layer chromatographic plates 1848
N-Glycosylation: Of asn43 of LPL, essential for efflux from the endoplasmic reticulum 939
GM3 ganglioside: Molecular species composition 1274
Gram-positive bacteria: Infection by, possible changes in lipid metabolism 1987
Granulocytes: Effects of 5-oxo-ETE on 2590
Growth hormone: And pituitary membrane fatty acids 1401
Guar gum
Effect of in lowering plasma LDL in the guinea pig 2394
Effects of in the guinea pig 2191

Guinea pigs: Regulation of secretion of VLDL 1188

H

HDL: *see* **High density lipoprotein**
H-FABP: *see* **Hepatic fatty acid binding protein**
Haptoglobin, biliary: A promoter of cholesterol crystallization 1325
Hedgehog: Plasma lipid transport in 485
Heparan sulfate proteoglycans: Inhibition of lipoprotein remnant uptake by hydrolysis of 583
Heparin binding: Reduction of binding of apoE variants 517
Heparinase, intravenous: Inhibition of remnant lipoprotein clearance by 583
Hepatic cholesterol metabolism: Developmental regulation 641
Hepatic fatty acid-binding protein: Interaction with bile salts 1745
Hepatic gene expression
In cholesterol-fed rabbits 308
Of ACAT in rabbits 823
Hepatic lipase: Association of activity with diet and LDL subclasses 462
Hepatic lipids: In inbred mouse strains 1522
Hepatic metabolism: Of chylomicron retinyl esters 1498
Hepatic triglyceride secretion: Stimulation by lipoteichoic acid in rats 1987
Hepatocyte canalicular membrane: Vesiculation of 2147
Hepatocyte cultures: Regulation of cholesterol 7α-hydroxylase expression by sterols 1168
Hepatoma cells, cultured: Movement of 25-hydroxycholesterol from plasma membrane to RER in 1092
HepG2 cells
ApoSAAp uptake by 37
Cholesterol uptake by 37
Distribution of apolipoproteins in, modulation by oleic acid 2243
Efflux of cholesterol from different pools 1887
mRNA levels of cholesterol biosynthesis enzymes and LDL receptor 1919
Promoter activities of apo[a] 5′ flanking fragments in 1721
Regulation of expression of apoA-I by retinoids in 1021
Regulation of expression of the LDL receptor gene in 1434
Regulation of MTP in 1073
Regulation of secretion of apoA-I and apoB 1796
Regulation of secretion of apoB-100 lipoprotein particles 2513
High density lipoprotein
Antioxidant effects in LDL-HDL mixtures 2580
CETP-mediated exchange of oxidized cholesteryl linoleate between LDL and HDL 2017
Cholesterol, imprinting by infant feeding 299
Cholesteryl esters, selective uptake in transgenic mice expressing human apoA-I 593
Gold complexes, uptake by granulosa cells 1602
Interconversion, and phospholipid transfer protein 975
LCAT activation in apoA-I deficient mice 349
Nascent, apolipoprotein-specific, formation of 148
Particles in chicken yolk 601
Peroxidized, aldehyde functions in cholesteryl esters and glycerophospholipids from 1876
Phospholipids, effect of dietary fat on 277
Remodelling with apoSAA, effect on cellular cholesterol efflux 1058
SAA4 as an apolipoprotein of 526
Subfractions, after incubation with phospholipid transfer protein 975
Subfractions, in NIDDM and CAD 573
Hormonal control: Of cholesterol cholelithiasis in the female hamster 1483
Hormonal regulation: Of the cholesterol 7α-hydroxylase gene (CYP7) 2419
HSPG: *see* **Heparan sulfate proteoglycans**
Human obesity: Adipocyte metabolism in 672
Hydrogen peroxide: Induction of glomerular synthesis of TXB_2 and PGE_2, role of PAF 260
Hydroxy fatty acids: Monitoring of lipoprotein oxidation by analysis of 200
3-Hydroxy-3-methylglutaryl coenzyme A reductase: Suppression of in fibroblasts, by intermediates in bile acid biosynthesis 290
3-Hydroxy-3-methylglutaryl coenzyme A synthase: Cytosolic, assay for 622
3ß-Hydroxy-5α-cholest-8(14)-en-15-one: Analog of, effect on cultured mammalian cells and rats 767
7α-Hydroxycholesterol: Serum, as an indicator of bile acid synthesis 2059
25-Hydroxycholesterol
Effect on sphingomyelin synthesis in Chinese hamster ovary cells 1345
Inhibition of cellular efflux by 505
Movement from the plasma membrane to the RER in cultured hepatoma cells 1092
Regulation of expression of LDL receptor gene expression in HepG2 and CaCo-2 cells 1434
24-Hydroxylase 1641
25-Hydroxylase 1641
3ß-Hydroxysterol Δ7-reductase: Defect in the Smith-Lemli-Opitz syndrome 89
Hypercholesterolemia, moderate
Effects of dietary fat in 1787
Overproduction of small VLDL in 158
Hyperlipidemia: In hamsters, effect of tetradecylthioacetic acid 2529
Hyperlipoproteinemia, nephrotic: And apoA-I transgenic expression 1463
Hyperlipoproteinemia, type III: Associated with apoE variants 517
Hyperresponsiveness: Of mice to dietary cholesterol and fat 1522
Hypertriglyceridemia
And LPL gene mutation 2104
Familial, abnormal bile acid absorption 96
In rats, induced by LTA 1987
LPL mutations in 117
Hypocholesterolemic activity: Of 2164U90 1098, 1106
Hypocholesterolemic model: Partial interruption of enterohepatic circulation 1544
Hypolipidemic activity: Of select fibrates, correlation with hepatic apoC-III expression 2541
Hypolipidemic effect
Of ACAT inhibitors in African green monkeys 1199
Of tetradecylthioacetic acid in cholesterol-fed hamsters 2529
Hyporesponsiveness: Of mice to dietary cholesterol and fat 1522

I

IDL: *see* **Intermediate density lipoprotein**
IL-1α: *see* **Interleukin-1α**
Immobilized artificial membrane chromatography: An HPLC method for evaluating bile salt-membrane interactions 2251
Immune complexes: Of bispecific LDL, metabolism of 714
Immunoassay, monoclonal antibody-based: Quantification of CETP by 876
Immunoelectron microscopy 2147
  Of LDL 2027
Immunological properties: Of in vitro oxidized LDL 919
Inbred mouse strains: Use of for identifying genes for controlling level and variability traits 1522
Infants: Dietary fat lipoprotein-cholesterol responses 1178
Inflammatory disease 2590
Inhibitors
  Of ACAT, effect of on secretion of cholesteryl esters and apoB by perfused liver 25
  Of sterol synthesis 767
Insect lipid transfer particle: Structural studies using apolipoprotein-specific antibodies 108
Insulin: Negative regulation of MTP gene expression in HepG2 cells by 1073
Interleukin-1α: Production in rabbit foam cells 2232
Intermediate density lipoprotein
  Conversion to LDL 158
  Impact of age on metabolism of apoB-100 in men 1155
Intestinal absorption: Of 9-*cis*-ß-carotene 1264
Intestinal lipid transport: Possible role of p-glycoprotein 1533
Intestinal lipids: In a model digestive mixture 2478
Intestinal metabolism: Of 9-*cis*-ß-carotene in vivo 1264
Intestinal triacylglycerol: Pool size under differing physiological conditions 2405
Intracellular bile salt transport: Function of H-FABP in 1745
Intracellular cholesterol trafficking: Function of sterol-carrier protein-2 in 2630
Intracellular lipid droplets: Location of perilipin on surface of 1211
Intracellular localization: Of LCAT 2329
Intracellular movement: Of 25-hydroxycholesterol 1092
Intracellular processing: Of LPL 939
Intrahepatic biliary cholesterol transport: Effect of obesity and cholesterol cholelithiasis 2562
Intralipid: Effect on triglyceride-rich lipoproteins 1557
Intravenous nutrition: Removal mechanisms of lipid emulsions 2174
Isopreterenol: Lipolytic effect of 451

K

Keratinocytes
  Cultured epidermal and oral, lipoxygenase mRNA in 2444
  Differentiation 2444
Kinetics
  Of apoA-I secretion in humans 1618
  Of apoB, relationship with plasma lipoproteins 158
  Of clearance of chylomicrons and lipid emulsions 2174
  Of decay of human fatty acid synthase mRNA, regulation by glucose 1507
  Of IDL and LDL apoB 172
  Of LDL oxidation 2113
  Of LDL oxidation, effect of oxygen partial pressure 2383
  Of small VLDL in moderate hypercholesterolemia 158

L

LacCer α2,3 sialyltransferase: Rat brain neuron, specificity of 1274
Lactosylceramide molecular species: Relationship to molecular species composition of GM3 ganglioside 1274
Lathosterol, serum
  And cholesterol synthesis 343
  Levels of, reflection of changes in whole body cholesterol synthesis induced by lovastatin 343
LCAT: *see* **Lecithin:cholesterol acyltransferase**
LDL: *see* **Low density lipoprotein**
Lecithin:cholesterol acyltransferase 211
  Activity, inhibition by copper and cigarette smoke 322
  Activity in mouse plasma, effect of apoA-I deficiency 349
  And apoA-I, role in cholesterol esterification in lipoprotein-X in vitro 2344
  Effect of dietary fat on reactivity of 277
  In vitro expression of natural mutants of 967
  Point mutations in 2329
  Reactivity, of nascent apolipoprotein-specific HDL 148
  Reduction of activity and hepatic mRNA levels by endotoxin and TNF 1254
  Specificity, and atherogenic risk 1813
Lecithin:cholesterol acyltransferase deficiency: Identification of defective alleles in fibroblast cDNA 931
Linoleate, dietary: Effect of on conversion of linolenate to docosahexaenoate in young rats 998
Linoleic acid
  In diets fed to infants, lipoprotein-cholesterol response 1178
  Metabolism of, in CaCo-2 cells 13
α-Linolenate: Conversion to docosahexaenoate 998
Lipase: Use of for analysis of positional distribution of fatty acids on di- and triacylglycerols 1407
Lipase, lysosomal acid: cDNA, cloning of 2212
Lipase, pancreatic: Interaction with colipase 1029
Lipids: Organization in pig stratum corneum 685
Lipid absorption 2405
Lipid analogs, fluorescent: Uptake and compartmentalization in *Schistosoma mansoni* larvae 1
Lipid bilayers: Interaction with retinol 375
Lipid composition
  Of gallbladder bile 96
  Of stratum corneum 496
Lipid droplets, intracellular: Location of perilipin on surface of 1211
Lipid emulsions
  Chylomicron-like, clearance of 2038
  Intravenous, removal mechanisms 2174
Lipid hydroperoxides 2017
  In LDL incubated with fibroblasts that overexpress 15-lipoxygenase 1996
Lipid hydroxides 2017
Lipid metabolism
  In 3T3-L1 adipocytes 2493
  In CaCo-2 cells 535
  In CaCo-2 cells, effect of cafestol on regulation of 2079

In rat liver, effects of dietary n-3 and n-6 polyunsaturated fatty acids on 1708
Lipid peroxidation 322, 736, 1756, 2580, 2203
In rat liver, effects of dietary n-3 and n-6 polyunsaturated fatty acids on 1708
Initiated by LDL and α-tocopherol radicals 1037
Lipid peroxide: Formation in oxidized LDL 2504
Lipid transfer particle apolipoprotein: Of *Manduca sexta*, immunologically distinct polypeptides 108
Lipolysis
In intra-abdominal fat cells, control of 451
In primate fat cells 451
Partitioning of free fatty acids to lipoproteins induced by 1956
Lipolytic enzymes, pancreatic: Hydrolysis of galactolipids by 1392
Lipoperoxides: In oxidized LDL 1996
Lipopolysaccharide: Discordant regulation of proteins of cholesterol metabolism during acute phase reaction 1474
Lipoproteins
Altered composition in cynomolgus monkeys 759
ApoA-I containing in CETP deficiency 696
Effects of partially hydrogenated fish oil, partially hydrogenated soybean oil, and butter on 1370
Impact of age in metabolism of VLDL, IDL, and LDL apoB-100 in men 1155
In type IV and V hypertriglyceridemic subjects 117
Mass transfer of neutral lipids among 2574
Nascent, in rough endoplasmic reticulum 395
Partitioning of free fatty acids to 1956
Relative affinity for exogenously added gangliosides 564
Separated by agarose gel electrophoresis, determination of triglycerides in 1839
Triglyceride-rich, metabolism of 1557
Triglyceride-rich, quantitation of apoB-100, B-48, and E in 890
Uptake into cells, mediated by LPL 2362
Lipoprotein [a]
Effect of dietary saturated fatty acids on in men 1447
Effects of partially hydrogenated fish oil, partially hydrogenated soybean oil, and butter on 1370
Lowering of by gemfibrozil 1294
Transfer of pyrene-dialkyl-glycerophosphocholine to 251
Lipoprotein biogenesis: Model for study of 2090
Lipoprotein cholesterol
Effects of partial biliary diversion 1544
In transgenic mice expressing human apoB and CETP 1082
Responses in infants fed diets predominant in oleic or linoleic acid 1178
Lipoprotein composition: In subjects with focal segmental glomerular sclerosis, effect of lovastatin 188
Lipoprotein levels: Association with LPL gene polymorphisms 2141
Lipoprotein lipase
Association of activity with diet and LDL subclasses 462
Enhancement of removal of chylomicrons and remnants by the perfused rat liver 1335
Mouse, expression in pregnancy 1774
Mutated at asn43, intracellular retention of 939
Structural features for the mediation of lipoprotein uptake into cells 2362
Lipoprotein lipase deficiency: Homozygous deletion of exon 9 356
Lipoprotein lipase expression: In transfected COS1 cells 939
Lipoprotein lipase gene
Asparagine 291→serine mutation 2104
Exon 9 deletion in 356
Lipoprotein lipase gene mutation: Interaction with body mass index, determination of elevated plasma triacylglycerol concentrations 2104
Lipoprotein lipase gene polymorphisms: Associations with myocardial infarctions and lipoprotein levels 2141
Lipoprotein lipase mutations: In hypertriglyceridemia 117
Lipoprotein metabolism
Estrogen-regulated, in transgenic mice 1453
In the hamster, effects of stigmastanyl-phosphocholine and lovastatin 1567
Lipoprotein oxidation
By monocytes 1857
Monitoring by gas chromatographic analysis of hydroxy fatty acids 200
Lipoprotein particles: Containing apoB-100, regulation of secretion by HepG2 cells 2513
Lipoprotein receptor-related protein: Mouse, expression in pregnancy 1774
Lipoprotein remnants
Catabolism in the intact animal 2670
Metabolism of 2670
Uptake, impairment by hydrolysis of HSPG 583
Lipoprotein secretion
In CaCo-2 cells 13, 535
In CaCo-2 cells, possible role of p-glycoprotein 1533
In HepG2 cells, modulation of 2243
Lipoprotein-X
Cholesterol esterification in, role of LCAT and apoA-I 2344
Metabolism in vitro 2344
Lipoteichoic acid: Stimulation of lipolysis and hepatic triglyceride secretion in rats 1987
Lipoxygenase inhibitors: Effect of on catecholamine secretion stimulated by calcium ionophores 2599
15-Lipoxygenase: Oxidative modification of LDL by 1996
Lipoxygenase mRNA: In cultured epidermal and oral keratinocytes 2444
Liver fatty acids: Effect of dietary linoleate on composition of 998
Lovastatin
Changes in whole body cholesterol synthesis induced by 343
Effect of on cholesterol kinetics in apoE-deficient mice 1227
Effects on lipid levels in the hamster on different diets 1567
Effects on lipoproteins and lipoprotein metabolism in the hamster on different diets 1567
Mechanism of action in nephrotic syndrome 188
Low density lipoprotein
Aggregates, metabolism of, mediated by human monocyte IgG Fc receptors 714
Binding to hepatic membranes of guinea pigs fed psyllium 1128
CETP-mediated exchange of oxidized cholesteryl linoleate between LDL and HDL 2017
Clearance in the cynomolgus monkey, role of the liver 67
Composition and size, effect of fish oil on 473
Conformation of apoB on surface of 2027

Containing apoB-667 2622
Copper-induced oxidation of subfractions of 662
Effect of psyllium on, in guinea pigs 1128
Hepatic uptake, regulatory effects of n–3 polyunsaturated fatty acids 1009
Immunoelectron microscopy of 2027
Impact of age on metabolism of apoB-100 in men 1155
Impaired uptake in fibroblasts from peroxisome-deficient patients 1385
Lowering in the guinea, effects of dietary fiber 2394
Metabolism in CaCo-2 cells 2079
Monocyte oxidation of 1857
Oxidation, and nitric oxide donors 1756
Oxidation of by iron or copper at acidic pH 2504
Oxidation of, effect of dietary n–3 fatty acids on 473
Oxidation resistance, effect of temperature and phase transition on 2113
Oxidation, inhibition by cysteine 2203
Oxidative modification and antioxidant protection 2383
Oxidative modification of, by 15-lipoxygenase 1996
Oxidized by copper ions 919
Oxidized by phospholipase A_2 plus lipoxygenase 919
Oxidized, endothelial cell injury by cholesterol oxidation products of 1971
Oxidized, immunological and functional properties 919
Oxidized, mediation of activation of phospholipase D by 2005
Oxidized, stimulation of IL-1α production by, in rabbit foam cells 2232
Peroxidase-dependent oxidation of 1037
Peroxidized, aldehyde functions in cholesteryl esters and glycerophospholipids from 1876
Plasma clearance in the hamster, effect of stigmastanyl-phosphocholine on 1567
Rapid measurement of 2291
Receptor-independent binding of apoE variants to 517
Subclasses, association with hepatic and lipoprotein lipase activities 462
Transfer of pyrene-dialklyl-glycerophosphocholine to 251
Low density lipoprotein cholesterol: In African green monkeys, reduction by ACAT inhibitors 1199
Low density lipoprotein receptor 1009
Affinity for an LDL particle containing apoB-67 2622
Binding, effects of bile diversion on 1544
Binding of apoE synthetic peptides to 80
Binding site for human apoE 1905
Deficiency in mice 2320
Expression, imprinting by infant feeding 299
Gene, aberrantly spliced mRNAs 1315
Gene mutations in FH patients, detected by DGGE and direct sequencing 860
Mouse, expression in pregnancy 1774
Regulation of gene expression of, in HepG2 and CaCo-2 cells 1434
mRNA, determination using RPA 1919
Low density lipoprotein receptor promoter: Genomic footprinting of 383
Low density lipoprotein receptor-related protein 2362
LPL: *see* **Lipoprotein lipase**
LTA: *see* **Lipoteichoic acid**
Lung surfactant
Biochemical composition of 1283
Dipalmitoyl phosphatidylcholine 1116
Subfractions 1283
Lymph nodes: And adipose tissue 2219
Lymphoid cells: Interaction of adipose tissue with 2219
Lysophosphatidylcholine: Ether analog, simple chemical synthesis of 2459
Lysophospholipids: As substrates for phospholipid acyltransferase 429
Lysosomal acid lipase
cDNA, cloning of 2212
Deficiency 241
Gene, mutation and dinucleotide deletion in, in cholesteryl ester storage disease 241
Mutation, identification in rat model of Wolman's disease 2212
Lysosomal degradation: Of apoE in macrophages 2129

M

α-macroglobulins: Mouse, expression in pregnancy 1774
Macrophages
Intracellular translocation of cholesterol in, effect of progesterone 544
Lysosomal degradation of apoE in 2129
Uptake of LDL by, effect of dietary n–3 fatty acids on 473
Uptake of oxidized LDL by 2504
Macrophage-dependent oxidation: Of LDL, inhibition by nitric oxide donors 1756
Macrophage-derived foam cells: IL-1α production in 2232
Macrophage-mediated LDL oxidation 473
Macrophage scavenger receptor gene: In the macrophage cell line, P388D1 1305
Manduca sexta
ApoLp-II, expression in *E.coli* 1066
Lipid transfer particle, structural studies 108
Mass spectrometry: And capillary chromatography, identification of arachidonate epoxides/diols by 952
MDCK cells: Polarized secretion of apoA-I and apoA-II by 407
MDL 29311: A phenolic antioxidant, inhibition of apoC-VLDL interaction by 2609
Membrane cholesterol: In human adipocytes, relation to CETP mRNA abundance 2552
Membrane phospholipids
Coenzyme A-dependent modification of fatty acyl chains 440
Composition, relationship to molecular species composition of GM3 ganglioside 1274
Menhaden oil: Triacylglycerol synthesis in rats fed glyceryl or alkyl esters of fatty acids from 1046
Microscopy, immunoelectron: Of LDL 2027
Microsomal triglyceride transfer protein: Regulation in HepG2 cells 1073
Microtiter plates: Use of in a cholesterol crystal growth assay 2054
Mobilization: Of fatty acids from adipose tissue 2164
Model digestive mixture: Physicochemical characterization by ^{2}H NMR 2478
Model of ß-carotene metabolism 1825
Molecular biology: Of enzymes involved in vitamin D metabolism 1641
Molecular defect: In LCAT deficiency 931
Molecular packing: Of 1-stearoyl-3-oleyl-glycerol 2185
Molecular physiology: Of reverse cholesterol transport 211

Molecular species: Of diacylglycerol moieties derived from lymph triacylglycerols of rats fed menhaden oil fatty acids 1046
Monoclonal antibodies
In immunoassay of plasma and cell culture CETP 876
Specific of LDL receptor-binding site of human apoE 1905
Monocyte IgG Fc receptors: Metabolism of LDL aggregates mediated by 714
Monolayer cell culture: Of freshly isolated adipocytes 868
Morphometry: Quantification of atherosclerosis in murine models by 2320
MTP: *see* **Microsomal triglyceride transfer protein**
Mucin: In human gallbladder bile, quantification of 2450
Multicompartmental model
For apoB metabolism 188
To study VLDL subfraction metabolism 172
Murine models of atherosclerosis 2320
Mutagenesis, site-directed: Of apoLp-III 1066
Mutants
Natural, of LCAT 967
Of human pancreatic lipase 1029
Somatic cell, and uptake of biologically active glycerophospholipids 1866
Mutations: In the LDL receptor gene of FH patients, detected by DGGE and direct sequencing 860
Myocardial infarction: Association with LPL gene polymorphisms 2141

N

Nephrotic hyperlipoproteinemia: And apoA-I transgenic expression 1463
Nephrotic syndrome: Mechanism of action of lovastatin in 188
Neutral cholesterol esterase: Activity, regulation by phospholipids in substrate liposome 2303
Neutral lipid
Mass transfer among lipoproteins 2574
Regulation of apoB-100 secretion by 2513
Neutral sterols, fecal: In patients with Smith-Lemli-Opitz syndrome 705
Neutrophils: Effects of 5-oxo metabolites of EPA on 2590
NIDDM: *see* **Non-insulin-dependent diabetes**
Nitric oxide donors: And LDL oxidation 1756
Non-insulin-dependent diabetes
ApoB-48 in 1676
HDL subfractions in 573
Norepinephrine: Lipolytic effect of 451
^{2}H Nuclear magnetic resonance: Physicochemical characterization of a model digestive mixture by 2478
Nucleation assay: Cholesterol crystal growth 2054
Nucleotide sequence: Of rabbit ACAT cDNA 823

O

Obesity
Effect of on intrahepatic biliary cholesterol and phospholipid transport in humans 2562
Adipocyte metabolism in 672
Oleic acid
In diets fed to infants, lipoprotein-cholesterol response 1178
Modulation of secretion of lipoproteins in HepG2 cells by 2243
Ovarian granulosa cells: Cholesterol uptake by the selective pathway of 1602
α-Oxidation: Of phytanic acid 986
Oxidation
Copper induced, of LDL subfractions 662
Of LDL by iron or copper at acidic pH 2504
Of LDL by monocytes 1857
Of LDL, effect of dietary n–3 fatty acids on 473
Of LDL, effect of temperature on 2113
Of LDL, endothelial cell injury by oxidation products of 1971
Of LDL, inhibition by cysteine 2203
Of LDL, macrophage-dependent, inhibition by nitric oxide donors 1756
Of LDL, participation of 15-lipoxygenase 1996
Of LDL, peroxide-dependent 1037
Oxidation kinetics, particle-specific: In mixed lipoprotein systems 2580
Oxidation of lipoproteins: Monitoring by gas chromatographic analysis of hydroxy fatty acids 200
Oxidation resistance: Of LDL 2113
Oxidative modification: Of LDL by 15-lipoxygenase 1996
Oxidized cholesteryl esters: CETP-mediated transfer of 2017
Oxidized cholesteryl linoleate: Exchange between LDL and HDL 2017
Oxidized low density lipoprotein
Immunological and functional properties 919
Protein fraction that stimulates IL-1α production in rabbit foam cells 2232
Stimulation of IL-1α production by, in rabbit foam cells 2232
Oxygen partial pressures: Effect of on oxidative modification and antioxidant protection of LDL 2383
15-Oxygenated sterol 767
Oxysterols
Cholest-5-ene-3ß,4ß-diol, identification and quantitation in rat liver and human plasma 2275
Effect on cholesterol cellular efflux 505

P

p-Glycoprotein: Possible role in esterification of plasma membrane cholesterol and TAG-rich lipoprotein secretion in CaCo-2 cells 1533
PAF: *see* **Platelet activating factor**
Palmitic acid: Metabolism of, in CaCo-2 cells 13
Pancreatic lipase
Interaction with colipase 1029
Kinetic properties that differ from colipase-dependent pancreatic lipase 2374
Pancreatic lipolytic enzymes: Hydrolysis of galactolipids by 1392
Parinaric acid cholesteryl ester: Use of in studying HDL antioxidant effects in LDL-HDL mixtures 2580
Pectin
Effect of in lowering plasma LDL in the guinea pig 2394
Effects of in the guinea pig 2191
Peptides, synthetic: Of apoE, binding to the LDL receptor 80
Perfused rat liver: Chylomicron clearance, effect of LPL 1335

Perilipin: Location on intracellular lipid droplets 1211
Peroxidation
Of LDL 1037
Of LDL and HDL, aldehyde functions in lipids from 1876
Peroxidative stress: In mixed lipoprotein systems 2580
Peroxisomes
Role of in biosynthesis of polyunsaturated fatty acids 2471
Transport of phytanic acid into 986
Peroxisomal ß-oxidation: 2433
In rat liver, effects of dietary n–3 and n–6 polyunsaturated fatty acids on 1708
Peroxisomal retroconversion: Of tetracosahexaenoic acid to from DHA in human skin 2433
Peroxisome deficiency: Abnormal cholesterol metabolism in 1385
Peroxisomopathies 1385
PGE_2: *see* **Prostaglandin E_2**
Phase behavior
Of natural ceramides, effect of fatty acid hydroxylation 1945
Of synthetic ceramide 1936
Phase transition: Effect of on oxidation resistance of LDL 2113
Phenotypes: Of apoE in children, in relation to serum lipids 653
Phosphatidic acid pathway: Involvement in origin of VLDL triglyceride in the rat 125
Phosphatidylcholine: With 20:6 n–3 at the *sn*-2 position, effect on TXA_2/PGH_2 receptor 47
Phosphatidylethanolamine: RBC membrane, fatty acid content in retinitis pigmentosa 1427
Phospholipase A-resistant phospholipids: Transfer to plasma lipoproteins 251
Phospholipase A_2
Immobilization of, biomedical applications 1147
Role in permeability barrier homeostasis 1825
Use of for analysis of positional distribution of fatty acids on di- and triacylglycerols 1407
Phospholipase activity: Of rat pancreatic lipase-related protein 2 2374
Phospholipase D: Oxidized LDL-induced activation of, in smooth muscle cells 2005
Phospholipid(s)
Association of synthetic peptide fragments of human apoA-I with 1686
Biliary, intrahepatic transport in humans 2562
Biliary, secretion from hepatocytes into bile canalicular lumen 2147
Brain endothelial cells, fatty acid composition 2311
CaCo-2 cells, fatty acid composition of 552
Composition in diabetic cynomolgus monkeys 759
Composition of, in apolipoprotein-specific nascent HDL 148
Extracellular processing in barrier homeostasis 1925
In HDL, effect of dietary fat on 277
In liposomes, regulation of neutral cholesterol esterase activity by 2303
In liver membranes, CoA-dependent modification of fatty acyl chains of 440
Recruitment by apoA-I and apoA-II 148
Phospholipid acyltransferase: Structural basis of substrate specificity 429
Phospholipid fatty acids: Of anterior pituitary membranes in EFA-deficient rats 1401
Phospholipid molecular species: In human platelet membranes, effect of on TXA_2/PGH_2 receptors 47
Phospholipid transfer protein 211
And HDL interconversion 975
Pig, purification of 975
Phospholipid-peptide complexes 1686
Phosphonolipid: Diether analog of DPPC, bilayer characteristics 1116
Photolabile 7,7-azi-3α-sulfatolithocholyltaurine: Synthesis and applicability of 1729
Phytanic acid
Oxidation 986
Transport into human peroxisomes 986
Phytanoyl-CoA ligase: Topographical localization 986
Phytosterolemia: Sterol absorption and sterol balance 1763
Piperazinium oleate: Crystal structure at -150°C 332
Pituitary membrane fatty acids: And growth hormone 1401
Plasma lipid transport: In the hedgehog 485
Plasma lipids
Effect of endotoxin on 1254
Levels in the Turkish Heart Study 839
Plasma lipoproteins
In type IV and V hypertriglyceridemic subjects 117
Relationship with VLDL apoB kinetics and direct LDL input 158
Plasma membrane
Esterification of cholesterol of 2651
Movement of 25-hydroxycholesterol from, to RER, in cultured hepatoma cells 1092
Plasma storage: Effect of temperature on oxidation resistance of LDL 2113
Plasma triacylglycerol: In hyperlipidemic subjects, myocardial infarction survivors, and healthy adults 2104
Platelet activating factor
Role in hydrogen peroxide induced glomerular synthesis of TXB_2 and PGE_2 260
Simple chemical synthesis of 2459
Platelet membranes: Specific phospholipid molecular species, effect on TXA_2/PGH_2 receptors 47
Point mutation
In the LCAT gene 2329
Of the LDL receptor gene 1315
Polymerase chain reaction: Quantification of scavenger receptor mRNA by 2282
Polymorphisms, lipoprotein lipase gene: Associations with myocardial infarctions and lipoprotein levels 214
Polyunsaturated fatty acids: Pathways for biosynthesis of 2471
Polyunsaturated fatty acids, n–3
Dietary, effects on lipid metabolism in liver lobules 1708
Regulatory effects on hepatic LDL uptake in the hamster and rat 1009
Polyunsaturated fatty acids, n–6
Dietary, effects on lipid metabolism in liver lobules 1708
Effect of on hepatic LDL uptake in the hamster and rat 1009
Pregnancy: Mouse, expression of the α-2-macroglobulin and LDL receptor-related protein 1774
Proapolipoprotein A-I: Biologically active, secretion in a baculovirus-insect cell system 2355
Probucol analogue: A phenolic antioxidant that lowers triglycerides 2609

Progesterone: Effect on cholesterol translocation in macrophages 544
Promoter activities: Of allelic apo[a] flanking fragments in HepG2 cells 1721
Pronucleating proteins: Use of, in a cholesterol crystal growth assay 2054
Prostaglandin E_2: Glomerular synthesis, role of PAF 260
Prostanoids, glomerular: Synthesis of, role of PAF 260
Protein binding: To the LDL receptor promoter 383
Protein degradation: In macrophages 2129
Protein kinase C
Involvement in repression of cholesterol 7α-hydroxylase transcription by bile acids 1359
Involvement of, in signal transduction pathway of ASP 1415
Psyllium
Effect of in lowering plasma LDL in the guinea pig 2394
Effect on cholesterol balance in guinea pigs 1128
Effects of in the guinea pig 2191
Reduction of LDL in guinea pigs by 1128
Pulmonary surfactant: Surface activity of 1283
Purification of conjugated bile salts 2639
Puromycin aminonucleoside 1463
Pyrene-dialkyl-glycerophosphocholine: Transfer to plasma lipoproteins 251
Pyrrole fatty esters, long chain: In vitro production from carbonyl-amine reactions 725

R

RBC: *see* **Red blood cell**
Receptors
Role in monocyte oxidation of LDL 1857
TXA_2/PGH_2, effect of molecular species of platelet membrane phospholipids on 47
Receptors, IgG Fc: Monocyte, metabolism of LDL aggregates mediated by 714
Receptor, scavenger: Differential regulation of isoforms of 2282
Recombinant human serum amyloid A
Catabolism of 37
Effect of on cholesterol flux 37
Recombinant squalene epoxidase: Purification and characterization 1489
Red blood cell: Phosphatidylethanolamine fatty acid content in retinitis pigmentosa 1427
Regulation
Developmental, of the catalytic subunit of apoB mRNA editing enzyme 1664
Dietary, of apoB-100 mRNA editing 2069
Differential, of macrophage scavenger receptor isoforms 2282
Hormonal, of the cholesterol 7α-hydroxylase gene (CYP7) 2419
Of apoB-100 secretion by neutral lipid in HepG2 cells 2513
Of bile acid synthesis in the rat 315
Of catecholamine secretion in chromaffin cells by a cytochrome P450 metabolite of arachidonic acid 2599
Of cholesterol biosynthesis 290
Of cholesterol 7α-hydroxylase expression in hepatocyte cultures 1168
Of cholesterol 7α-hydroxylase in the rabbit and rat 367
Of cholesterol efflux from different cholesterol pools in HepG2 cells 1887
Of clearance of chylomicron-like lipid emulsions 2038
Of cytoplasmic HepG2 fatty acid synthase, regulation by glucose 1507
Of hepatic LDL uptake, effect of n-3 polyunsaturated fatty acids 1009
Of human apoA-I expression in CaCo-2 and HepG2 cells, by all-*trans* and 9-*cis* retinoic acids 1021
Of LDL receptor gene expression in HepG2 and CaCo-2 cells 1434
Of lipid metabolism in CaCo-2 cells, effect of cafestol 2079
Of MTP in HepG2 cells 1073
Of neutral cholesterol esterase activity 2303
Of proteins of cholesterol metabolism during acute phase reaction 1474
Of secretion of apoA-I and apoB by HepG2 cells 1796
Of secretion of cholesteryl esters and apoB 25
Of the expression of the gene encoding the catalytic subunit of the rat apoB mRNA editing protein 414
Of the murine macrophage scavenger receptor in P388D1 1305
Of VLDL secretion in guinea pigs, effect of dietary fat saturation 1188
Remnant lipoproteins
Inhibition of clearance by intravenous heparinase 583
Metabolism of 2670
Renal failure, chronic: Post-translational forms of retinol-binding protein in 1247
RER: *see* **Rough endoplasmic reticulum**
Restriction map: For rat lysosomal acid lipase 2122
Retinitis pigmentosa: RBC membrane phosphatidylethanolamine fatty acid content in 1427
Retinoic acid: Regulation of CRBP by 137
9-*cis*-Retinoic acid: Biosynthesis of 1264
Retinoids: Regulation of expression of apoA-I by 1021
Retinoid-binding protein: Adipocyte, regulation of expression of 137
Retinol: Interaction with lipid bilayers 375
Retinol transport 1247
Retinol-bilayer interaction: Effect of radius of curvature of vesicle surface 375
Retinol-binding protein, human: Post-translational forms of 1247
Retinyl ester hydrolases: Role in hepatic uptake and metabolism of retinyl esters 1498
Retinyl esters, chylomicron: Hepatic uptake and metabolism 1498
Reverse cholesterol transport 593, 696
Molecular physiology of 211
Reversed-phase ion-pair chromatography: Assay of HMG-CoA synthase by 622

Deuterium-labeled, use of in evaluation of sterol absorption and balance in phytosterolemia 1763
In plasma of patients with Smith-Lemli-Opitz syndrome 2413
Regulation of cholesterol 7α-hydroxylase expression in hepatocyte cultures 1168
Sterol absorption: In phytosterolemia 1763
Sterol balance: In phytosterolemia 1763
Sterol synthesis: Inhibitors of 767
Sterol-carrier protein-2: Expression, enhancement by cellular cholesterol enrichment 2630
Steryl esters, short-chain: Artifactual formation during cholesterol quantitation by gas–liquid chromatography 2261
Stigmastanyl-phosphocholine
Effects on lipid levels in the hamster on different diets 1567
Effects on lipoproteins and lipoprotein metabolism in the hamster on different diets 1567
Storage pool size: Of intestinal triacylglycerol 2405
Stratum corneum
Pig, lipid organization in 685
Structure, characterization by X-ray diffraction 496
Structure–function studies: On insect lipid transfer particle 108
7,7-azi-3α-Sulfatolithocholyltaurine: Photolabile, synthesis of 1729
Surface activity: Of films of lung surfactant, hydrophobic proteins, and neutral lipids 1283
Surface-active impurities: Removal from conjugated bile salts 2639
Synthetic ceramide: Structural and thermotropic properties 1936

T

Temperature: Effect of on oxidation resistance of LDL 2113
Tetracosahexaenoic acid: Peroxisomal retroconversion in human skin to form DHA 2433
Tetradecylthioacetic acid
Effect of on triacylglycerol secretion in CaCo-2 cells 535

Hypolipidemic effect in cholesterol-fed hamsters 2529
In CaCo-2 cells 535
Thermotropic properties: Of synthetic palmitoyl ceramide 1936
3-Thia fatty acids: Effect of on hepatic lipid and lipoprotein metabolism 2529
Thin-layer chromatography
Of gangliosides, detection by chemiluminescence 911
Of glycosphingolipids 1848
Thromboxane A_2/prostaglandin H_2 receptors: Effect of phospholipid molecular species in platelet membranes on 47
Thromboxane B_2: Glomerular synthesis, role of PAF 260
Thyroid hormone: And apoA-I gene transcription 1586
TLC: *see* **Thin-layer chromatography**
TNF: *see* **Tumor necrosis factor**
α-Tocopherol
Effect of on oxidative modification of LDL 2383
Oxidation 1037
Tracer kinetics: Model of ß-carotene metabolism 1825
Transcriptional regulation: Of the CYP7 gene 2419
Transgenic mice
Expressing human apoA-I, selective uptake of HDL cholesteryl esters by 593
Expression of human apoB and CETP in 1082
Reverse cholesterol transport in 211
Transgenic mouse model: For study of estrogen-regulated lipoprotein metabolism 1453
Transgenic rats: Overexpression of human apoA-I in 1463
Triacylglycerol(s)
Analysis of positional distribution of fatty acids on, using lipase and phospholipase A_2 1407
Biosynthesis by rats fed glyceryl or alkyl esters of menhaden oil fatty acids 1046
Intestinal, pool size under differing physiological conditions 2405
Of plasma VLDL, origin in the rat 125
Plasma, in hyperlipidemic subjects, myocardial infarction survivors, and healthy adults 2104
Secretion in CaCo-2 cells 535
VLDL, secretion in guinea pigs, effect of dietary fat saturation 1188
Triacylglycerol-rich lipoprotein secretion: In CaCo-2 cells, possible role of p-glycoprotein 1533
Triglyceride
Determination in lipoproteins separated by agarose gel electrophoresis 1839
Fibrate-mediated lowering of 2541
Transfer among lipoproteins 2574
Triglyceride-rich lipoproteins
Metabolism 1557
Quantitation of apoB-100, B-48, and E in 890
Triglyceride secretion: Hepatic, stimulation by lipoteichoic acid in rats 1987
Triglyceride synthesis
In CaCo-2 cells 13
Stimulation by ASP 1415
Triglyceride-lowering: By MDL29311, a phenolic antioxidant 2609
Triiodothyronine: Regulation of CRBP by 137
Triton WR 1339: Effect on triglyceride-rich lipoproteins 1557
Tumor cell growth: Studies of inhibitors of 611
Tumor necrosis factor: Inhibition of LCAT by 1254
Turkish Heart Study: Lipids, lipoproteins, and apolipoproteins 839
TXB_2: *see* **Thromboxane B_2**
Type III hyperlipoproteinemia: Associated with apoE variants 517

U

Unsaturated fatty acids: Metabolism in the rat 1897

V

Vasoactive effects: Of epoxyeicosatrienoic acids 1236
Vertical Auto Profile-II methodology: Measurement of LDL subclasses by 2291
Very low density lipoprotein
Assembly in rat liver 395
Composition in guinea pigs fed psyllium 1128
Impact of age on metabolism of apoB-100 in men 1155
Interaction with apoC, inhibition by a phenolic antioxidant 2609
Metabolism of subfractions 172
Secretion rates in guinea pigs, regulation by dietary fat saturation 1188
Tetradecylthioacetic acid incorporated into, changes in fatty acid composition and plasma lipid levels 2529
Triacylglycerol, origin in the rat 125
Very low density lipoprotein, pre-ß: Double, associated with an apoE mutant 57
Very low density lipoprotein, small: Overproduction in moderate hypercholesterolemia 158
Vitamin C: Effect of on oxidative modification of LDL 2383
Vitamin D metabolism: Enzymology and molecular biology of enzymes involved in 1641
Vitamin E: Content of LDL, effect of storage temperature of LDL on 2113
VLDL: *see* **Very low density lipoprotein**

W

Wolman's disease: Rat model 2212

X

X-ray diffraction
Of a diether phosphonolipid analog of DPPC 1116
Of natural ceramides 1945
Of pig corneum stratum 685
Of stratum corneum 496
Of synthetic ceramide 1936
Single crystal 2185
Xenobiotic lipids: Synthesis and metabolism 2493

Z

Zymogen granule membrane protein: Rat pancreatic lipase-related protein 2 2374
